PROFILE

.As a passionate Electrical Engineer with a strong affinity for coding, I have honed my skills in front-end development, UX/UI design, and web technologies. My continuous drive for learning and improvement has led me to acquire key certifications from Coursera, including the Meta certification for front-end development and the Google Certification for UX/UI design. These accomplishments have set the foundation for my growth in the industry. Through my experiences as a Junior Front-End Developer, I have developed a deep understanding of HTML, CSS, JavaScript, and React, enabling me to create intuitive and visually appealing user interfaces. My work has consistently demonstrated my ability to deliver high-quality, interactive experiences for users while adhering to best practices and industry standards. In addition to my front-end development expertise, I have also cultivated a strong skillset in UX/UI design, leveraging my Google Certification to create seamless and engaging digital experiences. By marrying my technical prowess with a keen eye for aesthetics, I have been able to effectively blend form and function to ensure that every project is not only visually stunning but also user-centric and easily navigable. As I continue to advance my career, I am eager to collaborate with like-minded professionals who share my enthusiasm for innovation and problem-solving. My unique combination of engineering background, front-end development skills, and UX/UI design expertise will make me a valuable asset to any team. Connect with me to discuss potential opportunities, exchange ideas, or simply share your passion for technology and design.

EMPLOYMENT HISTORY

Junior Front-End Developer, Core Concepts

Athens

Jun 2023 — Present
